Wikipeeps is a non-profit media organization dedicated to bringing important news and information to the public. We provide an innovative, secure and anonymous way for independent sources around the world to leak sensitive information to our journalists. We publish alleged material of ethical, political and historical significance while keeping the identity of our sources anonymous, thus providing a universal way for the revealing of suppressed and censored injustices. Wikipeeps relies on its Facebook and Twitter fans in order to stay strong. Please keep us at the forefront of anti-censorship and [support us today](#).
